August 02, 2017

To

Sub: **Website Upgradation as per the draft Government Website Standards & Guidelines**

Sir/Madam,

This is in continuation to the letter issued by the department dated July 11, 2017 regarding the moratorium on website upgradation.

The website standards and guidelines has been presented to the webmasters on July 21, 2017. On consolidation of the comments, it was observed that there were no major issues/changes required on the draft standards and guidelines. The department is incorporating the comments and will finalise the standards by the end of August 2017. We will be distributing it to all agencies.

Therefore, the moratorium on the development of websites is hereafter lifted. Agencies planning to upgrading or building new websites may proceed inline with the draft standards which was shared earlier.

Yours sincerely,

Jigme Thinley Namgyal
(Director General)
